DRT CIVILS

CIVIL ENGINEERING & PROJECT MANAGEMENT

Capability Statement

Delivering tailored civil engineering and project management solutions to the civil and infrastructure sector across the East Coast of Australia.

WHO WE ARE

Expert solutions for your project, from concept to completion

DRT Civils is a civil engineering and project management consultancy based in the Northern Rivers of NSW. Our people have held senior positions in Tier 1 contractors and government agencies, with experience in complex project delivery locally, nationally and internationally.

We provide bespoke and expert solutions to a wide range of projects, from roads to rail infrastructure, and from earthworks to structures.

Location	Northern Rivers, New South Wales
Operating area	East Coast of Australia (NSW, QLD and VIC)
Clients	Local governments, Tier 1 and 2 contractors, national consultancies
Expertise	Foundations and ground engineering, earthworks and drainage, roads, rail infrastructure, FRP, bridges and structural steel

HOW WE WORK

Adaptable, open and focused on your outcomes

Adapt

Things change in this industry. Our team reacts quickly to challenges and anticipates them before they become issues.

Communicate

Successful projects are built on good communication and trust. We offer open and transparent communication.

Drive Value

We maximise outcomes and tailor the solution to your goals, be they financial, reputational or other.

Engage

We bring energy to your project, and contribute to a positive culture with your clients and your teams.

Innovate

We bring fresh ideas in project controls and construction methods, and build on your existing ways of working.

Integrate

Our team integrates seamlessly into yours, presenting a one team culture to your clients and stakeholders.

Services

Professional services for all stages of the project lifecycle
